

EXECUTIVE SUMMARY

1997 Raytheon Hawker 1000A N800WD sn: 259052

Best Kept Secret in Aviation is the Hawker 1000A

Why Buy A Hawker 1000A?

High speed (510mph) gets you there faster

Long range means more choices with minimized delays in reaching your destinations

Fuel efficiency accompanied by low operating costs makes this aircraft affordable to own and operate

Only Hawker powered by the highly reliable and efficient Pratt & Whitney Canada 305B engines other than the \$20m Hawker 4000

A fraction of the price for comparable aircraft in the market makes the Hawker 1000A the best kept secret in aviation

Aircraft Comparison:

- Similar cabin size, range and speed as Gulfstream G200 for half to quarter the price
- Larger cabin, faster and more efficient than the Hawker 800XP and 850XP for similar to half the price
- Same speed, more efficient, larger cabin and external baggage similar to Hawker 900XP for half to a third the price
- Longer range, similar speed and larger cabin than the Lear 60 for similar to half the price

Endurance and Range:

- 6.5 hour Endurance (3,413 sm) with NBAA IFR reserve
- San Francisco or Los Angeles to Hawaii nonstop with six to eight passengers
- San Francisco or Los Angeles to New York nonstop
- Miami to San Francisco or Los Angeles nonstop
- New York to any destination in Europe with one stop
